### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Priority*

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Korea on March 19, 2003. It is noted, however, that applicant has not filed a certified copy of the Korean application as required by 35 U.S.C. 119(b).

### *Drawings*

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description:

Reference # 380, 385 and S525.

3. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Information Disclosure Statement***

4. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

***Specification***

5. The use of the trademark BLUETOOTH has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

6. Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

7. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Claim Rejections - 35 USC § 112***

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "polling list" is confusing. A "*list*" is not a physical device but it is being referred as a physical device. The "*polling list*" is stored in a memory.

The examiner is examining the claims as the term is stating "*polling list memory*."

***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

**Chow, et al** disclose an automatic retrieval of changed files by a network software agent.

**Minnick, et al** show a multiple channel communications system.

**Verbeke, et al** teach submitting and performing computational tasks in a distributed heterogeneous networked environment.

11. If applicants wish to request for an interview, an "*Applicant Initiated Interview Request*" form (PTOL-413A) should be submitted to the examiner prior to the interview in order to permit the examiner to prepare in advance for the interview and to focus on

the issues to be discussed. This form should identify the participants of the interview, the proposed date of the interview, whether the interview will be personal, telephonic, or video conference, and should include a brief description of the issues to be discussed. A copy of the completed *"Applicant Initiated Interview Request"* form should be attached to the Interview Summary form, PTOL-413 at the completion of the interview and a copy should be given to applicant or applicant's representative.

### **Electronic Notification of Outgoing Correspondence (e-Office Action)**

Effective December 16, 2006, the United States Patent and Trademark Office (Office) will begin a pilot program to provide a limited number of Private PAIR users with the option of receiving electronic notification of some outgoing correspondence related to their US patents and US national patent applications retrievable through Private PAIR instead of a paper mailing of the correspondence. Patent Cooperation Treaty (PCT) applications will not be included in this pilot.

Participants in this pilot program will no longer receive paper mailings for most correspondence originating from a Technology Center. However, since several areas of the Office have independent mailing processes, pilot participants will continue to receive paper mailings for correspondence originating from several areas of the Office including, but not limited to: Office of Initial Patent Examination, Petitions, PCT, Appeals, Publications, Interference, and Reexamination.

A Private PAIR user will be able to opt-in to receive electronic mail message (email) notifications of outgoing correspondence by selecting the appropriate choice on the Customer Number Details screen for a customer number associated with a correspondence address after logging in to Private PAIR and providing between one and three email addresses to be used for these notifications. The Private Pair user must be a registered patent attorney or agent of record, or a pro se inventor who is a named inventor in the application associated with the customer number through which Private PAIR is accessed. The Office will then send a notification to each provided email address if a new outgoing correspondence has been prepared for the patents or patent applications associated with the user's Customer Number. Each email notification will list all applications, associated with the corresponding Customer Number, in which new outgoing correspondence was prepared for the corresponding electronic application files within the preceding 24 hours. Each email notification will be entered into the corresponding application files. The new outgoing correspondence will become available for viewing and downloading through Private PAIR within two business days of the date of the email notification.

Applicants will have the ability to opt-in or opt-out of receiving electronic notification of Office actions at any time. However, the status of each individual outgoing correspondence, whether electronic or paper, will be determined at the time of the printing of the form PTOL-90 cover sheet (at the time the outgoing correspondence becomes available for viewing, i.e., the date indicated on the correspondence).

The email notification described above will be sent after the Office action has been prepared and entered into the record. The period for reply to any Office

correspondence to which a reply is required will commence on the date indicated on the outgoing Office such outgoing correspondence for all other purposes (e.g., 37 CFR 1.71(g)(2), 1.97(b), 1.701 through 1.705). The Office communication will become available for downloading and viewing through Private PAIR on the date indicated on the correspondence.

If none of the documents in each of the applications listed in the email notifications are viewed or downloaded through Private PAIR within seven calendar days after the emails are sent, a courtesy postcard notifying the applicant of the availability of electronic Office action will be mailed to the correspondence address associated with the applicant's corresponding Customer Number for each of those applications. The mailing of a courtesy postcard will not restart the time period for reply, and the period for reply to any outgoing Office correspondence to which a reply is required will continue to be measured from the date indicated on such outgoing Office correspondence.

Please note that the email notification procedure outlined above is simply an automated email sent by the Office to alert applicant that an official Office correspondence has been entered in the official record that will be available for viewing via private PAIR. It is not an email sent by the examiner and does not alter the Office policy prohibiting an applicant or examiner from engaging in improper email correspondence. See MPEP section 502.03.

The e-Office Action Pilot Program will begin with a limited number of participants. The Pilot Program will last approximately six months. Upon the conclusion of the pilot program the success of the pilot will be evaluated. At that time decisions will be made as to whether or not to make modifications to the e-Office action program and whether or not to permanently implement the program.

Thus, if the pilot program is successful and a decision is made to permanently implement the program, it is expected that the e-Office Action Program will go into full production sometime around June 2007 at which point the program will be open to all users (registered patent attorney or agent of record, or a pro se inventor who is a named inventor in the application associated with the customer number through which Private PAIR is accessed) having a Customer Number and access to Private PAIR.

For further information please contact the Patent Electronic Business Center (EBC) 866-217-9197 (toll-free) or 571-272-4100 Monday through Friday from 6 a.m. to 12 Midnight Eastern Time or send e-mail to [ebc@uspto.gov](mailto:ebc@uspto.gov)
